- Significant experience and sourcing capabilities to identify and originate bank and bank-related assets

# TRANSACTION SUMMARY

---

Rationale: Enhance investment and expanded origination capabilities, enabling the combined platform to pursue growth of assets under management, further diversify the investment portfolio and capture a broader range of investment opportunities

## ArrowMark to acquire SAM's Bank Investment Platform

- Combination of StoneCastle Asset Management and ArrowMark's bank investment platforms
  - Create potential for best-in-class investment adviser: StoneCastle-ArrowMark Asset Management, LLC ("SAAM")
  - Bring ArrowMark's pipeline of new assets to BANX to seek to increase earnings per share

## Proposal to BANX Stockholders

- We are asking for stockholder approval to:
  1. Appoint SAAM as the new investment adviser
  2. Elect a new slate of directors, including two existing independent directors, increasing the board from five to eight directors (six of which will be independent)
- No change to advisory fees paid to the Adviser
- No expenses to be incurred by BANX related to the Transaction or BANX stockholders in the proxy solicitation process

## Dividend & Distributions Under the New Investment Adviser<sup>1</sup>

- Management expects BANX to declare a special dividend of \$0.10 per share to be paid at the regular June dividend date upon the acquisition of certain Pipeline Assets described herein:
  - SAAM intends to sell certain lower-yielding assets held by BANX to fund the purchase of ArrowMark's higher-yielding Pipeline Assets
  - As a consequence, the Company would accelerate and recognize income. SAAM expects that StoneCastle Financial will declare and pay a special dividend of \$0.10 per share upon such disposition and acquisition of assets
- Management currently anticipates that BANX's regular quarterly cash dividend could be increased in 2020, following such disposition and acquisition of assets<sup>1</sup>

(1) However there can be no assurances as to the acquisition of the Pipeline Assets and all dividends are subject to approval by the board of directors serving at the time of approval.

# STRATEGIC RATIONALE

Integrating SAM's community banking investment expertise with ArrowMark's established investment platform should position BANX to deliver significant stockholder value in both the near- and long-term

## StoneCastle-ArrowMark Asset Management Expects to Deliver Enhanced Stockholder Value

- Focus on continuity and investments consistent with past success of delivering stockholders with attractive risk-adjusted returns
- Ability to grow total assets under management from ArrowMark's proposed pipeline of alternative capital securities and potentially necessitate additional capital raises, thereby increasing stockholder secondary market liquidity<sup>1</sup>
- Maximize the full depth and breadth of integrated investment capabilities of two successful advisers
- **Primary goal to generate additional interest income, increase portfolio diversification and enhance dividend yield for stockholders**

### Complementary Investment Management Strategies

- Combined platform able to invest in small and large banking-related opportunities
- Powered by a combination of:
  - StoneCastle's specialized community banking investment platform and RAMPART system
  - ArrowMark's infrastructure and size should enable access to larger range of investment opportunities

### Near-term Revenue Benefits, and Scale & Operating Efficiencies

- StoneCastle-Arrowmark intends for BANX to acquire at least \$30 million of bank-related assets from ArrowMark's near-term deal pipeline
- SAAM intends to target assets that it believes can achieve a coupon of Libor + 9-10% (the "Pipeline Assets")<sup>2</sup>
- ArrowMark believes that BANX would benefit from ArrowMark's \$4.8 billion corporate credit and lending business including its large deal flow

### Proposed impact on StoneCastle Financial Corp.

- No change to the investment strategy of investing in bank and banking-related securities
- Sanjai Bhonsle (head of AMP's credit platform) will assume role of Chairman and CEO of BANX
- Board: Increase independent directors to six and increase board members to eight
- No change to advisory fees
- Management intends to increase BANX's regular quarterly dividend in 2020 upon the acquisition of Pipeline Assets<sup>3</sup> (see page 4)

(1) BANX shares must be trading at a premium to NAV at such time that BANX wishes to issue additional shares

(2) There can be no assurance that SAAM will be successful in acquiring investments that meet such criteria, or if it does, that such investments will return the yields SAAM expects

(3) Dividends are subject to Board approval and BANX may not achieve returns sufficient to support the dividend as described

# CONTINUITY OF STRATEGY

---

StoneCastle-ArrowMark Asset Management intends to continue to execute BANX's current investment strategy of generating stable, attractive risk-adjusted returns and capital preservation for BANX stockholders

- **Continued focus on bank-related investments** to preserve capital and generate stable current income and distributions for BANX stockholders, and to a lesser extent, capital appreciation
  
- **Acquisition of StoneCastle's specialized investment platform and related assets should position BANX to participate in an additional market for larger transactions** while preserving the regional and community bank deals StoneCastle has originated over the past 6 years. StoneCastle will transfer its proprietary RAMPART software and database system to track bank investments to StoneCastle-ArrowMark in the Transaction
  
- **StoneCastle Partners committed to facilitating orderly transition to StoneCastle-ArrowMark**

  - StoneCastle Partners and its affiliates, managing and servicing over \$18 billion of deposits, will continue to operate its deposit management and financial technology businesses, service the 800+ community banks in its deposit network

# BENEFITS OF BUSINESS SYNERGIES WITH ARROWMARK

## ArrowMark’s Investment Experience Matters

- Demonstrated track record of identifying investment opportunities in the banking sector driven by team members with decades of industry experience, including roles at global financial institutions
- ArrowMark’s considerable banking sector experience includes proprietary expertise investing over \$2.5 billion in alternative capital securities issued by regulated banking institutions, also referred to as “regulatory capital” securities
- ArrowMark’s scale, reputation and network of relationships with bank issuers represent a significant market advantage
- StoneCastle has worked with Arrowmark in the past, investing in two alternative capital securities, or regulatory capital transactions, of this type in the past year that were sourced through ArrowMark

## Alternative / Regulatory Capital Securities Overview

- Though alternative capital securities are attractive investments, they are difficult to source with barriers to entry for many investors
- These investments are typically privately issued in large increments (\$50 million or more); active investors in the space are typically much larger than BANX
- ArrowMark has a substantial 2020 pipeline of investment opportunities and intends to allocate at least \$30mm of new alternative capital securities opportunities to BANX following the closing of the Transaction

## ArrowMark’s Alternative Capital Track Record

ArrowMark’s alternative capital (or “regulatory capital”) investment track record demonstrates the firm’s strong sourcing, structuring, fundamental research, and risk management efforts

**\$2.5bn**  
invested in Alternative Capital Securities since 2010

As of 10/31/2019. **Past performance is no guarantee of future results and there can be no assurance that BANX will achieve returns similar to those of other funds AMP has managed.**

(1) Performance figures are based on aggregate regulatory capital investments within the ArrowMark Fundamental Opportunity Fund, L.P. and do not reflect deduction of advisory fee, performance fee or other expenses. Total returns reflect month-to-month changes in security valuations and income generation. Annualized since inception figures are calculated as a linked monthly return. Data from 2/1/2011 to 10/31/2019.
