

QUARTERLY UPDATE | 1Q 2024

Forward-Looking Statements

This presentation, and all oral statements made regarding the subject matter of this communication, contain forward-looking statements, including statements regarding the matters described in this presentation. Such forward-looking statements reflect current views with respect to future events and financial performance. Statements that include the words "should," "would," "expect," "intend," "plan," "believe," "project," "anticipate," "seek," "will," and similar statements of a future or forward-looking nature identify forward-looking statements in this material. All such forward-looking statements involve estimates and assumptions that are subject to risks, uncertainties and other factors that could cause actual results to differ materially from the results expressed in the statements. Actual future results may differ significantly from those stated in any forward-looking statement, depending on factors such as changes in securities or financial markets or general economic conditions, the volume of sales and purchases of shares of common stock, the continuation of investment advisory, administrative and service contracts, and other risks discussed from time to time in ArrowMark Financial Corp.'s (NASDAQ: BANX) ("Fund") filings with the SEC, which are available at the SEC's website http://www.sec.gov. Any forward-looking statements speak only as of the date of this communication. The Fund undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. You are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof.

About ArrowMark Financial Corp.

ArrowMark Financial Corp. is an SEC registered non-diversified, closed-end fund listed on the NASDAQ Global Select Market under the symbol "BANX." Its investment objective is to provide shareholders with current income. BANX's primary investment objective is to provide stockholders with current income. We attempt to achieve our investment objectives through investments in preferred equity, subordinated debt, convertible securities, regulatory capital relief securities and, to a lesser extent, common equity. Together with banks, we refer to these types of companies as banking-related and intend, under normal circumstances, to invest at least 80% of the value of our net assets plus the amount of any borrowings for investment purposes in such businesses. There is no guarantee that we will achieve our investment objective. The Fund is managed by ArrowMark Asset Management LLC ("ArrowMark").

ArrowMark Asset Management, LLC is majority owned by ArrowMark Colorado Holdings LLC ("ArrowMark Partners"). ArrowMark Partners is a registered investment adviser. ArrowMark has entered into a staffing agreement (the "Staffing Agreement") with its parent company, ArrowMark Partners and several of its affiliates. Under the Staffing Agreement, ArrowMark Partners provides experienced investment professionals to ArrowMark and provides access to their senior investment personnel. ArrowMark capitalizes on the significant deal origination, credit underwriting, due diligence, investment structuring, execution, portfolio management and monitoring of ArrowMark Partners' investment professionals.

About Destra Capital Advisors

Founded in 2006, Destra Capital Advisors LLC ("Destra") was built to help independent thought leaders achieve better wealth outcomes by sourcing the next generation of investment solutions. Destra provides secondary market services for eleven listed closed-end funds by responding to investor inquiries, providing information about the Funds and their portfolios, assisting with communication efforts, and speaking with institutional investors and financial advisors.

Destra Capital Advisors LLC, a registered investment advisor, is providing secondary market servicing for the Fund. To learn more, visit ir.arrowmarkfinancialcorp.com or contact Destra Capital Advisors at 877-855-3434 or BANX@destracapital.com.

6 Years of Consistent Distributions1 (As of 1/1/2018 - 3/31/2024)

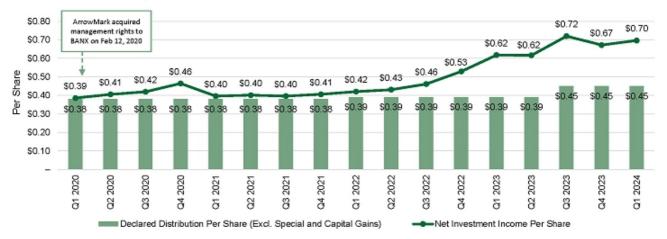

Data as of 3/31/2024. Source: ArrowMark Financial Corp. ¹Distributions from net investment income, if any, are declared and paid quarterly. Distributions, if any, of net short-term capital gain and net capital gain (the excess of net long-term capital gain over the short-term capital loss) realized by the Fund, after deducting any available capital loss carryovers are declared and paid to shareholders at least annually. Income distributions and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP. These differences include the treatment of non-taxable distributions, losses deferred due to wash sales and excise tax regulations. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications within the components of net assets.

10

Quarterly Declared Distributions (Excl. Special and Capital gains) and Net Investment Income

All quarterly declared distributions (excluding special and long-term capital gains distributions) have been more than covered by net investment income

- Net investment income growth has ramped since Q3 2022, benefiting from:
 - Percentage mix shift of portfolio to higher yielding regulatory capital relief securities
 - Rising interest rate environment, benefits from floating rate assets
- ArrowMark raised declared distributions to \$0.39 and \$0.45 per share in Q1 2022 and Q3 2023, respectively
- Some of the excess earnings over declared distributions have been returned to shareholders in the form of Special Distributions

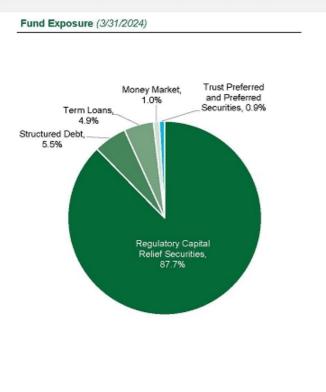

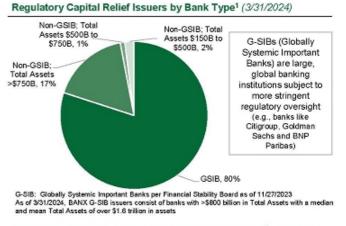

Data as of 3/31/2024. Source: ArrowMark Financial Corp. Income distributions and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP. These differences include the treatment of non-taxable distributions, losses deferred due to wash sales and excise tax regulations. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications within the components of net assets.

Regulatory Capital Relief Issuers Fitch Credit Ratings¹ (3/31/2024)

Diversification does not eliminate the risk of experiencing investment loss. Represents issuers, guarantors and/or affiliates of an issuer

ArrowMark Financial Corp. (BANX) Portfolio and Performance Regulatory Capital Relief Overview Financials Key Personnel

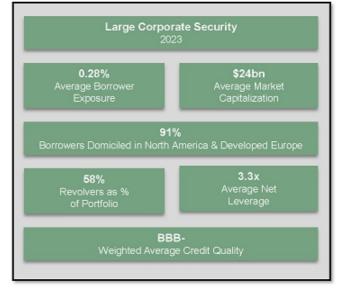

What Are Regulatory Capital Relief Securities (RCRS)?

Diversified Pools of Performing Reference Loans	 Credit risk from a portfolio of loans and revolving lines of credit ("reference portfolio") extended to investment grade and near investment grade borrowers is transferred to holders of RCRS. Performance of RCRS is underpinned by the performance of these loans Reference loans are originated with the intention to be held on the balance sheet as part of the issuing bank's core lending book Geographic, sector, and individual borrower diversification enforced by transaction guidelines
Structural Alignment with Issuing Banks	 Issuers service loans and retain material exposure to underlying reference loans through the transaction structure Loan officers and account managers are typically unaware of any RCRS risk transfer of loans they manage. Banks and their employees are incentivized to maintain underwriting discipline in an effort to minimize defaults and, if defaults occur, maximize recoveries Investors benefit from the issuing bank's borrower relationships as well as their underwriting, monitoring, and workout resources
Income-Driven Returns with Low Correlation	 Performance primarily driven by income from floating-rate coupons Historical returns characterized by resilience during periods of market and/or macroeconomic stress Low historical correlation to most traditional and alternative asset classes
Effective Tool for Large, Global Bank Issuers	 Transactions are a core balance sheet optimization tool and complement other efforts to optimize capital levels, reduce balance sheet concentrations, manage lending capacity, and respond to regulatory and/or accounting changes Enable banks to maintain core lending activities that are often prerequisites to gaining investment and commercial banking business Benefits reinforced by issuance growth and issuer expansion across the U.K., Europe, Canada, U.S., and Asia

Past performance is no guarantee of future results. Diversification does not eliminate the risk of experiencing investment loss. Please review the "Certain Risk Factors" and "Potential Conflicts of Interest" sections in the Partnership's Memorandum for a more complete description of the risks and conflicts of interest associated with investing in the Partnership.

Typical	Reference Portfolio Characteristics
Reference Loans Description	 Originated with the intention to be held on the issuing bank's balance sheet Performing at the time of security issuance Remain part of the bank's core loan portfolio after issuance
Credit Quality	 Investment grade / near investment grade weighted average Individual exposures range from AA to B-; nothing below B- at issuance Limits on the size of individual and aggregate exposures to sub-investment grade borrowers
Diversification Guidelines	GeographicSectorBorrower

¹The investments described herein are noted for illustration purposes only. It should not be assumed that this example or future investments will be profitable. If any assumptions used do not prove to be true, results may vary substantially. Diversification does not eliminate the risk of experiencing investment loss. Characteristics are based on the composition of the loan pool at issuance in 2023. ²Credit quality based on issuing bank's internal rating methodology.

Banks are Ince	ntivized to Maintain Disciplined Underwriting Processes and Standards
Issuing Bank Retention	 Unhedged exposure outside the security structure Senior tranche Equity tranche of mezzanine-only tranche issuances
Coupon	 Floating rate Base rate plus a contractual spread Paid/distributed quarterly <u>Not</u> subject to potential discretionary suspension
Duration	 0.25 years
Expected Maturity	 3 to 5 years for new issues
Issuer	 Established global financial institutions in the U.K., Europe, Canada, U.S., and Asia

(1) Based on the average shares outstanding during quarter.
 (2) Refacts reinvestment of distributions at the price obtained under the Dividend Reinvestment Plan. Total return does not include sales load and offering expenses and are not annualized.
 (3) Refacts reinvestment of distributions at the price obtained under the Dividend Reinvestment Plan. Total return does not include sales load and offering expenses and are not annualized.
 (4) Ratio of expenses before waivers to average managed assets equals 4.65% and 5.65%.
 (5) Ratio of expenses after valvers to average managed assets equals 4.65% and 5.65%.
 (7) Celculated by subtracting the Company's total liabilities (excluding the loan) from the Company's total assets and dividing the amount by the loan outstanding in 000's.
 * Annualized
 ** Not-annualized

ArrowMark Financial Corp. (BANX) Portfolio and Performance Regulatory Capital Relief Overview Financials Key Personnel

SANJAI BHONSLE | CHAIRMAN & CEO

Mr. Bhonsle was elected Chairman & CEO of ArrowMark Financial Corp. in February 2020.

Mr. Bhonsle joined ArrowMark Partners in October 2012 and serves as Partner and Portfolio Manager for ArrowMark's Partners leveraged loan investments and collateralized loan obligation funds. Prior to joining the firm, he founded MB Consulting Partners in 2009, where he specialized in financial and operational restructuring advisory to stressed and distressed middle-market companies. With more than 10 years of restructuring experience, he has led several assignments across various industries.

Sanjai was a Senior Portfolio Manager at GSO Capital Partners, a subsidiary of The Blackstone Group, and member of the Investment and Management Committee (2005-2009). Prior to joining GSO Capital Partners, Sanjai was an Assistant Portfolio Manager for RBC Capital Partners' debt investment group and was a member of the Investment Committee (2001-2005). He also led the group's restructuring efforts related to distressed investments and represented the firm's interests on creditor committees. From 1999-2001, Sanjai was a Senior Investment Analyst at Indosuez Capital Partners. Sanjai received a bachelor's degree in Mechanical Engineering from the University of Wisconsin - Madison and an MBA from the Eli Broad Graduate School of Management at Michigan State University.

DANA STAGGS | PRESIDENT

Mr. Staggs was elected President of ArrowMark Financial Corp in June 2022.

Mr. Staggs joined ArrowMark in June of 2017 and is a team member of ArrowMark's Private Capital Solutions group where he sources, structures, and manages private debt and non-control private equity investments. Prior to joining ArrowMark Partners in 2017, he worked in similar capacities at firms to include Goldman Sachs & Co., Barclays Private Credit Partners LLC and GE Capital. Mr. Staggs previously served over 10 years as a surface warfare officer in the U.S. Navy, having attained the rank of Lieutenant Commander. He earned a Bachelor of Science degree in Physics from the United States Naval Academy and an MBA from The Mason School of Business at the College of William and Mary.

PATRICK J. FARRELL | CHIEF FINANCIAL OFFICER

Mr. Farrell was re-elected as ArrowMark Financial Corp.'s Chief Financial Officer in February 2020. He has served in this role since April 2014. Mr. Farrell is responsible for all financial and accounting activities at ArrowMark Financial.

Mr. Farrell has served as Chief Financial Officer at StoneCastle Partners, LLC since 2014. Mr. Farrell has served as a Director of StoneCastle Trust Co. since January 2021. He has over forty years of hands-on management experience in finance and accounting, specifically focused on domestic and off-shore mutual funds, bank deposit account programs, investment advisory and broker dealer business.

Previously, Mr. Farrell was CFO/COO of the Emerging Managers Group, LP, a specialty asset management firm focused on offshore mutual funds. Prior to that, Pat was CFO at Reserve Management. Earlier in his career, Pat held financial positions at Lexington Management, Drexel Burnham Lambert, Alliance Capital and New York Life Investment Management, all focused on investment advisory activities. He began his career as an auditor at Peat Marwick Mitchell & Co. in New York. Pat holds a BS in Business Administration-Accounting from Manhattan College.

Mr. Farrell is a Certified Public Accountant in New York State and a member of the American Institute of Certified Public Accountants.

RICK GROVE | CHIEF COMPLIANCE OFFICER

Mr. Grove was elected Chief Compliance Officer of ArrowMark Financial Corp. in February 2020.

He is a Principal and Chief Compliance Officer at ArrowMark Partners. He is also the Vice President, Chief Compliance Officer and Secretary for Meridian Fund, Inc. Before joining ArrowMark Partners in 2008, he was Vice President and Chief Compliance Officer for Black Creek Global Advisors (2007-2008). Prior to that position, Rick served as Vice President and Chief Compliance Officer for Madison Capital Management (2005-2007), Assistant Vice President and Director of Compliance at Janus Capital Group (1993-2005), and Fund Accountant for Oppenheimer Funds (1992-1993). Rick graduated from the University of Wyoming with a bachelor's degree in Accounting.

Risks are inherent in all investing. The following summarizes some, but not all, of the risks that should be considered for the Company. For additional information about the risks associated with investing in the Company, please see the Company's prospectus as well as other Company regulatory filings.

Investment and Market Risk: An investment in the Company's common shares ("Common Shares") is subject to investment risk, including the possible loss of the entire principal invested. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Company dividends and distributions. The Company expects to utilize leverage, which will magnify investment risk.

Regulatory Capital Relief Securities Risk: Regulatory capital relief securities are subject to several risks. In particular, to all capital securities, banking regulators could change or amend existing banking regulations which could affect the regulatory treatment of regulatory capital relief securities, where stricter regulation could make regulatory capital relief securities less desirable, or undesirable, for banks to issue, reducing the supply of new investments. Should an adverse regulatory development occur in the future, it would likely result in the bank issuer of such securities being able to redeem an investment early, which subjects the Company to reinvestment risk. Regulatory capital relief securities remain subject to the same sector specific and other risks as any banking-related investment that the Company may acquire, including, but not limited to, credit risk, interest rate risk, prepayments, adverse changes in market value or liquidity and the quality of the loans extended by each bank to its clients.

Preferred and Debt Securities Risk: Preferred and debt securities in which the Company invests are subject to various risks, including credit risk, interest rate risk, call/prepayment risk and reinvestment Annual Report | ArrowMark Financial Corp. 28 risk. In addition, preferred securities are subject to certain other risks, including deferral and omission risk, subordination risk, limited voting rights risk and special redemption rights risk.

Credit Risk: The Company is subject to credit risk, which is the risk that an issuer of a security may be unable or unwilling to make dividend, interest and principal payments when due and the related risk that the value of a security may decline because of concerns about the issuer's ability or willingness to make such payments.

Leverage Risk: The use of leverage by the Company can magnify the effect of any losses. If the income and gains from the securities and investments purchased with leverage proceeds do not cover the cost of leverage, the return on the Common Shares will be less than if leverage had not been used. Moreover, leverage involves risks and special considerations for holders of Common Shares including the likelihood of greater volatility of net asset value and market price of the Common Shares than a comparable portfolio without leverage, and the risk that fluctuations in interest rates on reverse repurchase agreements, borrowings and short-term debt or in the dividend rates on any preferred shares issued by the Company will reduce the return to the holders of Common Shares or will result in fluctuations in the dividends paid on the Common Shares. There is no assurance that a leveraging strategy will be successful.

Call/Prepayment and Reinvestment Risk: If an issuer of a security exercises an option to redeem its issue at par or prepay principal earlier than scheduled, the Company may be forced to reinvest in lower yielding securities. A decline in income could affect the Common Shares' market price or the overall return of the Company.

Risks of Concentration in the Banking industry/Financial Sector: Because the Company concentrates in the banking industry and may invest up to 100% of its managed assets in the banking industry and financials sector, it will be more susceptible to adverse economic or regulatory occurrences affecting the banking industry and financials sector, such as changes in interest rates, loan concentration and competition.

Regulatory Risk: Financial institutions, including community banks, are subject to various state and federal banking regulations that impact how they conduct business, including but not limited to how they obtain funding. Changes to these regulations could have an adverse effect on their operations and operating results and our investments. We expect to make long-term investments in financial institutions that are subject to various state and federal regulations and oversight. Congress, state legislatures and the various bank regulatory agencies frequently introduce proposals to change the laws and regulations governing the banking industry in response to the Dodd-Frank Act, Consumer Financial Protection Bureau (the "CFPB") rulemaking or otherwise. The likelihood and timing of any proposals or legislation and the impact they might have on our investments in financial institutions affected by such changes cannot be determined and any such changes may be adverse to our investments. Federal banking regulators recently proposed amended regulatory capital regulations in response to The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") and Basel III protocols which would impose even more stringent capital requirements. In the event that a regulated bank falls below certain capital adequacy standards, it may become subject to regulatory intervention including, but not limited to, being placed into a Federal Deposit Insurance Corporation (FDC)-administered receivership or conservatorship. The effect of inadequate capital can have a potentially adverse consequence on the institution's financial condition, its ability to operate as a regulated financial institution and may have a material adverse impact on our investments.

Interest Rate Risk: The market value of convertible securities tends to decline as interest rates increase and, conversely, tends to increase as interest rates decline. In addition, because of the conversion feature, the market value of convertible securities tends to vary with fluctuations in the market value of the underlying common stock. Contingent convertible securities provide for mandatory conversion into common stock of the issuer under certain circumstances. Since the common stock of the issuer may not pay a dividend, investors in these instruments could experience a reduced income rate, potentially to zero; and conversion would deepen the subordination of the investor, hence worsening standing in a bankruptcy. In addition, so me such instruments have a set stock conversion rate that would cause a reduction in value of the security if the price of the stock is below the conversion price on the conversion date.

Convertible Securities/Contingent Convertible Securities Risk: The Company is subject to credit risk, which is the risk that an issuer of a security may be unable or unwilling to make dividend, interest and principal payments when due and the related risk that the value of a security may decline because of concerns about the issuer's ability or willingness to make such payments.

Illiquid and Restricted Securities Risk: Investment of the Company's assets in illiquid and restricted securities may restrict the Company's ability to take advantage of market opportunities. Illiquid and restricted securities may be difficult to dispose of at a fair price at the times when the Company believes it is desirable to do so. The market price of illiquid and restricted securities generally is more volatile than that of more liquid securities, which may adversely affect the price that the Company pays for or recovers upon the sale of such securities. Illiquid and restricted securities are also more difficult to value, especially in challenging markets. The risks associated with illiquid and restricted securities may be particularly acute in situations in which the Company's operations require cash and could result in the Company borrowing to meet its short-term needs or incurring losses on the sale of illiquid or restricted securities.
